Bugs Found

Function Name	FR1: DUS Web-Registration
Bugs	1. Password: There is no specific requirement for password,just a suggestion.(I activated what we can call a medium password strength. User will be prompted to enter a good password before they can continue the registration) 2. Activate account:we dont need to activate account to make a booking.(Done) 3. The following selection in the registration should be single Choice.

Function Name	FR2: DUS Web - Login
Bugs	1.There is no link for login in the sidebar after I log out. (Done)

Function Name	FR3: DUS Web - Login recovery
Bugs	1.For this part, the website seems like we could edit e-mail(I tried and failed) User Email * liu156789321@outlook.com (We Should not allow them to edit the email address, because it is now considered the Username. We cannot allow them to change this, and if asked we will say that changed this requirement) 2.if we click the aviator on right top side, and click "edit my profile".it will redirect to my booking (This has been fixed. I removed that completely and now the users only have one profile) 3.The function for retrieving password cannot work. （Fixed）

Function Name	FR4: DUS Web - Update profile
Bugs	Well done.

Function Name	FR5.1: DUS Web - Add facilities
Bugs	Well done.

Function Name	FR5.2: DUS Web - Delete a facility
Bugs	Well done.

Function Name	FR5.3: DUS Web - Edit facilities
Bugs	1.For some of the facilities, the price in the text is inconsistent with the book phrase. But I think the text we can edit, just a reminder. (fixed)

Function Name	FR6: DUS Web - Search function
Bugs	Well done.

Function Name	FR7.1: DUS Web - User view availability
Bugs	1.Users only have daily and monthly availability of facility. (This is actually how it is supposed to be because we show 4 weeks in the monthly calendar, and they can choose the day they want)

Function Name	FR7.2: DUS Web - User booking
Bugs	1.I can book two rooms at same time in same account, which is not allowed

_____

Best regards,

Durham University Sports

(I tried to make booking twice for aerobic room, and I received two same e-mail, which made me quite confused)

3.For aerobic room, we do not need to include the person option.

(For the above I changed the settings so that every customer is allowed to make one booking only every 24 hours)

3. There is no response when pressing the Cancel and Reschedule button for user's reservation. (Fixed)

4. I cannot receive the email after booking Squash courts (other facilities can receive). (The free API of e-mail will delay sometimes.)

5.All of the users can block, but in the requirement only admin can do it. (Fixed)

6.There is no price displayed in email. (Fixed by change the setting)

	7.I find there is a yoga class, but I'm not sure if the user can book the class online since I remember the user just book the class by calling the coach. (Fixed by creating class schedule page)

Function Name	FR7.3: DUS Web - Admin Booking
Bugs	1.The booking beyond the capacity, since the different type of device cannot synchronize (One is booked by phone, another is booked by laptop). But the synchronization will be accomplished after few minutes, a little delay. (Let's discuss in our upcoming meeting and see how it works because I think this has to do with the settings fixed) 2. After rescheduling the booking, there are two appointments in the same time for tennis, but when I want to make a new book, the available number is wrong. (Fixed)

Function Name	FR7.4: DUS Web - View of all user's bookings
Bugs	Well done.

Function Name	FR7.5: DUS Web - Admin View bookings
Bugs	Well done.

Function Name	FR7.6: DUS Web - Cancelling a booking
Bugs	1.Admin can edit (reschedule) the appointment which is expired. (Admin must have access to everything, and I think it is a good idea)

Function Name	FR 8.1: DUS Web - Responsive website to multiple devices
Bugs	Well done.
